

BHAGATH SIDDI

Prosper, TX 75078 | 989-312-3420 | bhagathsiddi@gmail.com | linkedin.com/in/bhagathsiddi

STAFF AI ENGINEER

Visionary leader with 20 plus years of experience in enterprise AI systems and scaling teams.

CORE AI COMPETENCIES & TECHNICAL LEADERSHIP

- **AI Engineering:** Building ML solutions.
- **MLOps:** Scaled pipelines.

PROFESSIONAL EXPERIENCE

7-Eleven

Frisco/Dallas, TX

2024 – 2026

Senior Engineering Manager / Head of Technology - 7Now Delivery Platform

- **AI Strategy & Product Development:** Spearheaded the adoption of advanced engineering practices and AI-native system designs, scaling the platform to support high-volume distributed applications serving over 250 million users.
- **Rapid Prototyping & Execution:** Led multi-scrum engineering teams to move fast from proof-of-concept to production-grade deployment on aggressive timelines, achieving a measurable 25% reduction in overall time-to-market.
- **Data-Driven Leadership:** Exercised sound judgment and swift decision-making to optimize core product roadmaps and timeline estimations, building cross-functional consensus with stakeholders to reduce post-launch system anomalies by 30%.
- **Technical Excellence & Mentorship:** Recruited, structured, and scaled a premier engineering branch, mentoring senior and staff engineers while establishing robust CI/CD deployment pipelines and high-velocity development lifecycles.

CVS Health

Remote

2014 – 2023

Director / Engineering Manager - Digital Applications and Regulated Infrastructure

- **Healthcare ML & Core Architecture:** Owned the architecture, design, and deployment of secure applications operating in highly regulated environments, managing clinical, transactional, and claims data frameworks handling millions of secure daily operations.
- **Team Building & Scale:** Built, led, and scaled distributed agile squads of 12–18 engineers across 4 cross-functional divisions, prioritizing career development plans that improved sprint velocity by 20% and decreased team onboarding loops by 40%.
- **Cross-Functional & Executive Alignment:** Collaborated closely with Product, Product Design, Clinical Operations, and Delivery partners to scope high-impact initiatives, utilizing strong interpersonal and presentation skills to influence technical strategy at the level of executive leadership.
- **Compliance & Distributed Systems:** Managed the end-to-end lifecycle of distributed architectures utilizing relational and NoSQL engines (MSSQL, Postgres), ensuring complete data governance, payment gateway security, and strict healthcare compliance.

Enterprise Consultant

Various

2005 – 2014

Technical Lead / Senior Software Engineer

Client Portfolio: American Express, AT&T, Verizon, JPMC, Universal American, Alindus

- **System Architecture & Algorithms:** Directed deep exploration into complex data structures, algorithms, and secure software engineering methodologies, constructing high-throughput distributed transaction systems that drove a 15% optimization in query performance.
- **Agile Delivery & Integrity:** Managed task delegation and sprint velocity metrics for engineering pipelines, maintaining rigorous attention to detail and delivering production targets within fast-paced financial and telecom operational settings.

EDUCATION, CERTIFICATIONS & QUALIFICATIONS

- **Applied Agentic AI for Organizational Transformation** | MIT Professional Education (2026)
- **AWS Certified Solutions Architect – Professional** | Credential Verification Link
- **Bachelor of Technology (B.Tech) in Computer Science & Engineering** | Kakatiya University, India
- **Technical Stack Summary:** Python, PyTorch, TensorFlow, Azure ML, Databricks, Spark, Delta Lake, Azure DevOps, AWS Serverless, Lambda, JavaScript, MSSQL, Postgres, DynamoDB, Salesforce, React, TypeScript, SQL, GitHub, Jira Cloud.
