

BHAGATH SIDDI

Prosper, TX 75078 | 989-312-3420 | bhagathsiddi@gmail.com | linkedin.com/in/bhagathsiddi

DIRECTOR OF AI ENGINEERING | STRATEGY & ENTERPRISE ML LIFE-CYCLE

Visionary and customer-centric leader with over two decades of experience in software and digital product development, skilled in translating complex business objectives into strategic digital product roadmaps. Proven track record of building, scaling, and deploying production-grade digital experiences across websites and mobile apps, driving measurable improvements in engagement, conversion, and customer satisfaction. Expert in leveraging data and advanced architectures to deliver innovative, scalable digital solutions, fostering a collaborative and inclusive culture centered on operational excellence and user experience.

CORE AI COMPETENCIES & TECHNICAL LEADERSHIP

- **Digital Product Strategy and Vision:** Expert at translating executive business objectives into executable digital product roadmaps, setting the strategic vision for scalable platforms, and driving innovation across the customer journey.
- **Enterprise Platform Leadership and Scaling:** Proven ability to build and scale high-performing cross-functional teams, establish product management best practices, and lead end-to-end delivery of complex enterprise-grade digital solutions.
- **Customer-Centric Innovation and Solutions:** Deep commitment to understanding customer pain points and translating insights into innovative, frictionless digital experiences, leveraging advanced technologies to drive measurable improvements in engagement and satisfaction.
- **Data-Driven Decision Making and Optimization:** Championing a data-driven approach to define and track KPIs, utilizing analytics for continuous improvement, identifying optimization opportunities, and ensuring product decisions are grounded in measurable business outcomes.
- **Cross-Functional Leadership and Alignment:** Adept at building trusted, collaborative partnerships across engineering, operations, marketing, and sales, influencing without authority to drive alignment on priorities and achieve shared digital objectives.
- **Team and Organizational Development:** Dedicated to mentoring product managers and design teams, cultivating a generative and inclusive culture focused on technical excellence, talent development, and building a high-performing product function.

PROFESSIONAL EXPERIENCE

7-Eleven

Frisco/Dallas, TX

2024 – 2026

Senior Engineering Manager | Head of Technology - 7Now Delivery Platform

- **AI Strategy & Product Development:** Spearheaded the adoption of advanced engineering practices and AI-native system designs, scaling the platform to support high-volume distributed applications serving over 250 million users.
- **Rapid Prototyping & Execution:** Led multi-scrum engineering teams to move fast from proof-of-concept to production-grade deployment on aggressive timelines, achieving a measurable 25% reduction in overall time-to-market.
- **Data-Driven Leadership:** Exercised sound judgment and swift decision-making to optimize core product roadmaps and timeline estimations, building cross-functional consensus with stakeholders to reduce post-launch system anomalies by 30%.
- **Technical Excellence & Mentorship:** Recruited, structured, and scaled a premier engineering branch, mentoring senior and staff engineers while establishing robust CI/CD deployment pipelines and high-velocity development lifecycles.

CVS Health

Remote

2014 – 2023

Director | Engineering Manager - Digital Applications & Regulated Infrastructure

- **Healthcare ML & Core Architecture:** Owned the architecture, design, and deployment of secure applications operating in highly regulated environments, managing clinical, transactional, and claims data frameworks handling millions of secure daily operations.
- **Team Building & Scale:** Built, led, and scaled distributed agile squads of 12–18 engineers across 4 cross-functional divisions, prioritizing career development plans that improved sprint velocity by 20% and decreased team onboarding loops by 40%.
- **Cross-Functional & Executive Alignment:** Collaborated closely with Product, Product Design, Clinical Operations, and Delivery partners to scope high-impact initiatives, utilizing strong interpersonal and presentation skills to influence technical strategy at the level of executive leadership.
- **Compliance & Distributed Systems:** Managed the end-to-end lifecycle of distributed architectures utilizing relational and NoSQL engines (MSSQL, Postgres), ensuring complete data governance, payment gateway security, and strict healthcare compliance.

Enterprise Consultant

Various

2005 – 2014

Technical Lead | Senior Software Engineer

Client Portfolio: American Express, AT&T, Verizon, JPMC, Universal American, Alindus

- **System Architecture & Algorithms:** Directed deep exploration into complex data structures, algorithms, and secure software engineering methodologies, constructing high-throughput distributed transaction systems that drove a 15% optimization in query performance.
- **Agile Delivery & Integrity:** Managed task delegation and sprint velocity metrics for engineering pipelines, maintaining rigorous attention to detail and delivering production targets within fast-paced financial and telecom operational settings.

EDUCATION, CERTIFICATIONS & QUALIFICATIONS

- **Applied Agentic AI for Organizational Transformation** | MIT Professional Education (2026)
- **AWS Certified Solutions Architect – Professional** | Credential Verification Link
- **Bachelor of Technology (B.Tech) in Computer Science & Engineering** | Kakatiya University, India
- **Technical Stack Summary:** Python, PyTorch, TensorFlow, Azure ML, Databricks, Spark, Delta Lake, Azure DevOps, AWS Serverless, Lambda, JavaScript, MSSQL, Postgres, DynamoDB, Salesforce, React, TypeScript, SQL, GitHub, Jira Cloud.
