

BHAGATH SIDDI

Prosper, TX 75078 | 989-312-3420 | bhagathsiddi@gmail.com | linkedin.com/in/bhagathsiddi

DIRECTOR OF AI ENGINEERING | STRATEGY & ENTERPRISE ML LIFE-CYCLE

Visionary Director, IT Solutions with over 20 years of software leadership, specializing in establishing strategic IT roadmaps and driving enterprise-wide digital transformation across global operations. Proven expertise in infusing artificial intelligence into IT solutions, overseeing the entire solution lifecycle from selection to optimization, ensuring robust governance and delivering measurable ROI. Adept at leading high-performing teams, fostering innovation, and managing complex technology ecosystems to maximize operational efficiency and agility. Expert in optimizing vendor relationships and facilitating change management for successful technology adoption.

CORE AI COMPETENCIES & TECHNICAL LEADERSHIP

- **Strategic IT Solutions and Digital Transformation:** Visionary leader driving strategic IT roadmap development and digital transformation initiatives across global enterprises, adept at infusing AI capabilities for business growth and agility.
- **Enterprise Platform Governance and Lifecycle Management:** Proven ownership of the entire IT solution lifecycle from selection to optimization, ensuring robust governance and compliance across critical enterprise platforms including ServiceNow and its key modules (ITAM, ITOM, ITSM, HRSD, IRM, TPSRM).
- **AI Integration and Advanced Analytics Leadership:** Deep expertise in infusing Artificial Intelligence, including Generative AI, and advanced analytics into IT solutions to enhance automation, drive innovation, and deliver actionable business insights, particularly with Power BI.
- **SDLC Tooling and Cloud Ecosystem Management:** Expertise in spearheading Centers of Excellence for SDLC tooling like Azure DevOps and Jira, integrating workflows, promoting Agile and Product Management best practices, and leveraging cloud-native platforms.
- **Data Governance and Enterprise Reporting:** Strategic vision for robust data governance, ensuring data quality, integrity, security standards, and compliance (e.g., ISO, GDPR), utilizing Power BI for AI-powered reporting and executive insights.
- **Cross-Functional Leadership and Operational Excellence:** Adept at leading and empowering cross-functional teams, overseeing vendor relationships, negotiating contracts, driving change management, user adoption, and implementing risk management frameworks for operational excellence and ROI.

PROFESSIONAL EXPERIENCE

7-Eleven

Frisco/Dallas, TX

2024 – 2026

Senior Engineering Manager | Head of Technology - 7Now Delivery Platform

- **AI Strategy & Product Development:** Spearheaded the adoption of advanced engineering practices and AI-native system designs, scaling the platform to support high-volume distributed applications serving over 250 million users.
- **Rapid Prototyping & Execution:** Led multi-scrum engineering teams to move fast from proof-of-concept to production-grade deployment on aggressive timelines, achieving a measurable 25% reduction in overall time-to-market.
- **Data-Driven Leadership:** Exercised sound judgment and swift decision-making to optimize core product roadmaps and timeline estimations, building cross-functional consensus with stakeholders to reduce post-launch system anomalies by 30%.
- **Technical Excellence & Mentorship:** Recruited, structured, and scaled a premier engineering branch, mentoring senior and staff engineers while establishing robust CI/CD deployment pipelines and high-velocity development lifecycles.

CVS Health

Remote

2014 – 2023

Director | Engineering Manager - Digital Applications & Regulated Infrastructure

- **Healthcare ML & Core Architecture:** Owned the architecture, design, and deployment of secure applications operating in highly regulated environments, managing clinical, transactional, and claims data frameworks handling millions of secure daily operations.
- **Team Building & Scale:** Built, led, and scaled distributed agile squads of 12–18 engineers across 4 cross-functional divisions, prioritizing career development plans that improved sprint velocity by 20% and decreased team onboarding loops by 40%.
- **Cross-Functional & Executive Alignment:** Collaborated closely with Product, Product Design, Clinical Operations, and Delivery partners to scope high-impact initiatives, utilizing strong interpersonal and presentation skills to influence technical strategy at the level of executive leadership.
- **Compliance & Distributed Systems:** Managed the end-to-end lifecycle of distributed architectures utilizing relational and NoSQL engines (MSSQL, Postgres), ensuring complete data governance, payment gateway security, and strict healthcare compliance.

Enterprise Consultant

Various

2005 – 2014

Technical Lead | Senior Software Engineer

Client Portfolio: American Express, AT&T, Verizon, JPMC, Universal American, Alindus

- **System Architecture & Algorithms:** Directed deep exploration into complex data structures, algorithms, and secure software engineering methodologies, constructing high-throughput distributed transaction systems that drove a 15% optimization in query performance.
- **Agile Delivery & Integrity:** Managed task delegation and sprint velocity metrics for engineering pipelines, maintaining rigorous attention to detail and delivering production targets within fast-paced financial and telecom operational settings.

EDUCATION, CERTIFICATIONS & QUALIFICATIONS

- **Applied Agentic AI for Organizational Transformation** | MIT Professional Education (2026)
- **AWS Certified Solutions Architect – Professional** | Credential Verification Link
- **Bachelor of Technology (B.Tech) in Computer Science & Engineering** | Kakatiya University, India
- **Technical Stack Summary:** Python, PyTorch, TensorFlow, Azure ML, Databricks, Spark, Delta Lake, Azure DevOps, AWS Serverless, Lambda, JavaScript, MSSQL, Postgres, DynamoDB, Salesforce, React, TypeScript, SQL, GitHub, Jira Cloud.
